WHAT DO YOU DO?

Founded by Brad Matthews, **Endeavor Machining Solutions** has served the Lloydminster area since 2007. "We offer services that very few, if any, can from Edmonton right through to Saskatoon. This includes Thermal Spray Services, with a multitude of coating options, and custom cylindrical and flat grinding. We are a full-service manufacturing center with the ability to quickly scale projects from 1 to 500+ with ease."

"Local businesses create jobs, stimulate local economic growth and foster a sense of community identity."
- Brad Matthews, Founder

WHY DO YOU THINK YOU'VE BEEN SUCCESSFUL?

"We provide a more personalized and attentive customer experience, building stronger connections with our customers. Flexibility is another advantage—we can adapt quickly to market changes and customer feedback, implementing adjustments more efficiently than any larger organization. Moreover, we have local roots, are engaged in the community, and feel this gives us more of a sense of authenticity and trust that resonates with our customers. Finally, our ability to innovate and take calculated risks has led us to niche market successes that others have simply overlooked."
